PROFESSIONAL SUMMARY

Front-End Engineer with 2+ years of work experience building responsive, scalable web applications for insurance, food-tech, and content-driven products. Strong in React, Next.js, TypeScript, Vite, state management, reusable UI systems, and REST API integration. Experienced in translating product requirements and client feedback into reliable, accessible interfaces while collaborating with backend and QA teams.

CORE TECHNOLOGIES

Languages: TypeScript, JavaScript, HTML5, CSS3

Frameworks & Tooling: React, Next.js, Vite, Node.js

UI & Styling: Tailwind CSS, Shadcn UI, Radix UI, Material UI, Chakra UI, Sass, Bootstrap

State, Data & Quality: React Query, Redux Toolkit, Zustand, Context API, Zod, Jest, REST APIs, Git, GitHub, Postman

PROFESSIONAL EXPERIENCE

Canalis — Front-End Engineer

Oct 2024 – Present

- Build and maintain responsive Life, General, and health-insurance platforms for emPLE using React, Next.js, TypeScript, and reusable component systems.
- Deliver frontend workflows across policy administration, service-provider onboarding, bookings, claims assessment, authorization-based claim registration, and policy certificate generation.
- Integrate REST APIs and manage server and client state with React Query, Redux, and Zustand for policy, claims, and authentication workflows.
- Translate stakeholder feedback into production-ready features while collaborating with backend and QA engineers to resolve edge cases and maintain release quality.

Eat Cheffie (Contract) — Front-End Engineer

Nov 2024 – Mar 2025

- Developed a responsive, accessible vendor-facing platform using Next.js, TypeScript, and Material UI.
- Built API-driven workflows with Redux Toolkit and Zod, strengthening state consistency, form validation, and data integrity; supported code reviews and API testing with GitHub and Postman.

Kreela — Front-End Engineer

Jan 2024 – Sep 2024

- Translated Figma designs into accurate, responsive React interfaces across desktop and mobile devices.
- Built reusable components, managed application state, and integrated external APIs to support real-time data and maintainable product growth.
- Tested and debugged API integrations with Postman to improve reliability and frontend-backend compatibility.

SELECTED PROJECTS

emPLE Insurance Platforms — Life and General Insurance platforms, agency portal, and customer websites. Tech: React, Next.js, TypeScript, Tailwind CSS, Radix UI, Zustand, Zod, REST APIs.

Eat Cheffie Vendor Web — Responsive vendor-facing web platform. Tech: Next.js, TypeScript, Material UI, Redux Toolkit, Zod, REST APIs.

Lusions IA Website — Content-driven website integrated with a headless CMS. Tech: Next.js, TypeScript, Tailwind CSS, Radix UI, Sanity.

Naebi Dynamic Concepts — Responsive company website with CMS-managed content. Tech: React, TypeScript, Vite, Tailwind CSS, Redux Toolkit, Contentful.

EDUCATION

Lagos State University, Lagos, Nigeria — B.Eng., Electronics and Computer Engineering
